

Schedule (desktop) - Side nav and top bar

Sync Information

This text will dynamically update to show when the last sync happened, and when the next sync is scheduled. This will help users understand when they can expect information from 311 to show up in the Bin System.

Top bar

This top bar will be fixed to the top of the page and will not scroll with the rest of the content.

Account Information

The logged in user's name would appear here. The drop down will allow them to access account settings. Office managers would also be able to add new team members.

Bin Delivery System

Hover State

Selected State

Reports

This would link to a Microsoft Power BI integration where users could generate reports about monthly and yearly data.

Side Navigation (desktop)

This side nav will appear on all desktop pages and will stretch to fill the viewport height. It will be fixed in place and will not scroll when the rest of the page scrolls.

System last synced at: 3:54pm today

Next Sync: 4min
